

1. If you have never joined Ascend before, click [HERE](#).
If you have been an Ascend member in the past who canceled a subscription and you're returning, please click [HERE](#).
2. Complete the very brief questionnaire. This information will direct you to the correct monthly or annual subscription rate, based on your role in the industry and whether or not you have a current Edge (software support) agreement.
3. Click the green **Try Free** button for either a monthly or annual subscription. (If you have been a member previously, you have already had the opportunity to enjoy a free trial and will not be offered a second free trial.)
4. Create your account. Fill in your first name, last name, email and decide on a password. Then click the green **Create Account** button. On the next screen, you'll have the opportunity to add a picture to your profile or skip that step. (If you choose not to add a picture, a generic image will be assigned to your profile. You can change that in your account settings later if you wish.)
5. Next, you'll enter your billing information. Enter your name and credit card, CVC, expiration date and zip code. The next screen confirms the price that you'll pay for the monthly or annual subscription (if you don't cancel Ascend during your free trial) and the date that the subscription will begin. Click the green **Start Free Trial** button.
6. If you also wish to sign up for an upcoming Premium Event, click the Premium Event link in the menu pane. Click the upcoming Premium Event you wish to attend and then click **Buy**.
7. If you wish to purchase a Premium Course, click the Premium Courses link in the menu pane. Click the course you wish to purchase and then click **Buy**.
