What do I get with my CaseViewNet License?

A CaseViewNet license further improves your realtime output with premium tools and versatility exclusive to CATalyst users. When you add a CaseViewNet license to CATalyst, you get:

Rapid Refresh™ – Instantly update the realtime screens with all your editing changes

Easy local broadcasting – Send your realtime text to in-room participants wirelessly via LAN, or via Ethernet; remote broadcasting is available via CaseViewNet Cloud, offered separately.

Save and copy rights – Maintain complete control over viewer rights to your transcript
